Career Objective

Motivated and enthusiastic Computer Science Engineering student with hands-on internship experience in Full Stack Web Development using the MERN Stack. Passionate about building scalable web applications and continuously improving development skills in JavaScript, React.js, Node.js, Express.js, and MongoDB. Seeking an opportunity as a MERN Stack Developer Intern or Full Stack Developer to contribute technical skills and grow in a professional software development environment.

Education

Rajiv Gandhi University of Knowledge Technologies (RGUKT), Basar

Bachelor of Technology (B.Tech) – Computer Science Engineering

Currently Pursuing

Technical Skills

Programming Languages: Java, JavaScript, C, Python

Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

Core Concepts: REST APIs, Authentication & Authorization, CRUD Operations, MVC Architecture, Responsive Web Design

Internship Experience

Full Stack Web Development Intern – MERN Stack

Web Stack Academy (WSA)

March 2026 – April 2026

Internship Highlights

- Learned and implemented full-stack web development using the MERN stack.
- Built backend APIs using Node.js and Express.js.
- Worked with MongoDB for database management and schema design.
- Developed frontend interfaces using React.js.
- Implemented authentication, cart system, routing, and admin dashboard features.
- Participated in SDLC-based project development and deployment workflow.
- Gained practical exposure to REST API integration and backend architecture.

Technologies Used: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

Projects

AI-Powered Restaurant & Food Ordering Web Application

MERN Stack Project

Project Description

Developed a full-stack restaurant and food ordering platform with user authentication, menu browsing, cart management, payment integration, and admin dashboard functionalities.

Features

- User Registration & Login Authentication
- Restaurant and Menu Browsing
- Food Cart Management System
- Order Placement System
- Payment Integration
- Admin Dashboard for Restaurant Management
- AI-Based Review Analyzer Feature

Technologies Used:

- Frontend: React.js
- Backend: Node.js, Express.js
- Database: MongoDB
- Other Tools: REST APIs, JWT Authentication

Responsibilities

- Developed backend routes and controllers.
- Integrated frontend with backend APIs.
- Designed database models for menu, cart, and orders.
- Implemented authentication and authorization.

Certifications

- Certificate of Internship – Full Stack Web Development in MERN by Web Stack Academy (WSA)

Strengths

- Quick Learner
- Problem Solving
- Team Collaboration
- Self-Motivated
- Strong Interest in Full Stack Development

Languages Known

- English
- Telugu
